Fourth of July Safety Tips:

FIREWORKS SAFETY The safest way to enjoy fireworks is to attend a public fireworks show put on by professionals. Stay at least 500 feet away from the show. Many states outlaw most fireworks. If someone is setting fireworks off at home, they should follow these safety steps:

- Never give fireworks to small children, and always follow the instructions on the packaging.
- Keep a supply of water close by as a precaution.
- Make sure the person lighting fireworks always wears eye protection.
- Light only one firework at a time and never attempt to relight "a dud."
- Store fireworks in a cool, dry place away from children and pets.
- Never throw or point a firework toward people, animals, vehicles, structures or flammable materials.
- Leave any area immediately where untrained amateurs are using fireworks.
